Senior Reporting Associate (Ft. Worth, TX)

About TPG

TPG is a leading global alternative asset firm with a long history of investing in growth, change, and innovation. Founded in San Francisco in 1992, the firm now manages more than \$91 billion with investment and operations teams in 12 offices around the world. TPG invests across a range of asset classes including private equity, growth equity, real estate, impact investing, secondaries, and public equity. Across all our strategies, we maintain a rigorous investment process and a deep, research-based approach to theme and sector development. TPG has an active portfolio of more than 250 companies, with current and past investments including Airbnb, Beautycounter, CAA, Calm, Cushman & Wakefield, McAfee, Spotify, and Uber.

Reporting & Analytics

We are looking for a Senior Reporting Associate who is passionate about analyzing / transforming / modeling / visualizing data and has built data solutions using the Microsoft Power Platform. Ideally this person is a great communicator and team player, is proactive in moving projects forward, and is comfortable defining requirements, user stories, and development tasks. This role will require skills in data solutions development, data analysis, documenting functional/technical requirements, building user relationships, and cross-team collaboration. The Senior Reporting Associate should also be able to manage multiple project workloads, develop a good understanding of the development/business processes, and identify opportunities to improve processes with supported technologies. A background in Financial Reporting or Accounting is a must.

Responsibilities

- Work with Business and Accounting teams to design, develop, test, and document reporting and data solutions
- Collaborate with Enterprise Data Operations team to define data models and pipelines across multiple source systems
- Provide Production Support for existing reports/applications/processes
- Make recommendations and contributions to further development standards and processes

Requirements

- Bachelors degree in Finance or Accounting preferred. Quantitative disciplines such as Computer Science, Engineering, or Applied Math also acceptable.
- 5 Years Development/Support Experience in Reporting and Data Architecture
- Business and/or Data Analysis experience related to Financial Reporting and Accounting Systems
- Advanced technical skills with Power Platform, Excel, SQL
